

Update for Employees of Caleb Village in Saskatchewan – February 08, 2021

Caleb Management Ltd. would like to express our most sincere appreciation to our employees during this unprecedented time. You are the front-line response to protecting our residents during a pandemic. Each of you are a valuable member of our service team and we will continue to support you during this pandemic.

Employee's of Caleb Village have the appropriate PPE (Personal Protective Equipment) available to them to use during this pandemic. Please watch resident doors for signage that would indicate an increased level of PPE protection may be required, also available for your use.

The health & wellbeing of our residents and our employee's is our primary concern. We ask that all employees continue to follow the guidelines of the Saskatchewan Health Authority – wash your hands (many times during the day), wear a mask while at work and follow the necessary PPE guidelines if Caleb Village is under an outbreak status. Please limit unnecessary travel in and out of your community, keep your circle small, refrain from attending gatherings and wear a mask when in public. The Public Health Order currently states that your own home should not have visitors, unless it is a single person who only visits your household. These measures are to protect you, your family, and your community.

If you require further information, please contact the on-site General Manager or the Director of Quality & Safety for Caleb Management at 306-934-2075.

Thank you for your understanding as we continue to follow the direction of the Medical Health Officer and the Saskatchewan Health Authority.

Caleb Management Ltd.
